**Beacon ID:**  
**2DDAA F91BE BFDFF**

**Type:**  
**EPIRB**

**Registration Expiration:**  
**February 26, 2027**

Dear Beacon Owner/Operator:

Thank you for registering your 406 MHz emergency beacon. Please take a few moments now to verify your beacon ID, check/update your registration information, and attach your registration decal to your beacon.

**VERIFY YOUR BEACON ID:** Please verify that the beacon ID listed above is identical to the manufacturer/installer-programmed ID displayed on your beacon's manufacturer-provided label. First generation beacons (FGBs) are programmed with a 15-hexadecimal ID; second generation beacons (SGBs) are programmed with a 23-hexadecimal ID. The 15- or 23-hex ID may be called a hex ID or UIN on your manufacturer's label. All hexadecimal character strings use numbers 0 through 9 and letters A through F. *If the beacon ID registered with NOAA is **not** identical to the manufacturer/installer ID, please contact us immediately.*

**CHECK/UPDATE YOUR REGISTRATION INFORMATION:** The registration information you provided has been entered into our database and a printout of that information appears on the back of this letter. Please review the printout to ensure that all of your information, especially the emergency points of contact, is correct. If changes are necessary, you can make them online 24/7 via our website. If you lack online access, please mail or fax an updated copy of the registration to us. Remember, if your beacon is activated, the information in your registration is provided with the distress message transmitted to Search and Rescue (SAR) forces, assisting them in locating you in a timely manner and possibly saving your life.

**ATTACH YOUR REGISTRATION DECAL:** The decal at the top of this letter should be affixed directly to your beacon in such a way that it is visible when the beacon is properly mounted. Be sure the area is clean and dry before affixing the decal.

Please read your beacon owner's manual carefully for instructions on proper installation and operation of your beacon to ensure that the beacon works properly and is used in a manner that eliminates false alerts that waste valuable SAR resources. If you have questions about information in the owner's manual, please contact the beacon manufacturer directly.

**This letter is the proof-of-registration for your beacon; please retain it for your records. We will send you a renewal reminder approximately 2 months before your 2-year registration expires.** If you have any questions regarding beacon registration, please contact the NOAA SARSAT Beacon Registration Team.
