## RADIOSTATION AUTHORIZATION

### COMMUNICATIONS ACT SAFETY RADIOPHONE CERTIFICATE

FEDERAL COMMUNICATIONS COMMISSION  
Approved by QM# 3080-0226  
United States of America

3080-0226  
Approved by QM#

Name of Radiostation	Official Number	Radio Call Sign	Port of Registry	Gross Tonsnage
THE SAILOR	222-2222	KX2222	NEW YORK	1000

The Government of the United States certifies that the radiotelephone installation on board the above-named vessel complies with all provisions of Part III of Title II of the Communications Act, the rules of the Coast Guard and other applicable laws, regulations, and practices of the station licensees, and successfully completed a test at the time this certificate was issued.

Subscriptions to the station, a telephone or teletype connection to any vessel within the jurisdiction of the United States, transporting more than six passengers, or equipment which is capable of being used in effective radiotelephone communication in operating condition, is to be made through the operator of the open set of any telephone within the jurisdiction of the United States, or through the operator of the vessel.

Type of radio equipment on board the vessel  VHF  HF  EPIRB  MARSAT

When a VHF station only is provided, the certificate is valid only while the vessel is within communication range of a public coast station or U.S. Coast Guard station operating in the band 156 to 182 MHz which maintains an efficient watch for遇船 distress calls.

This certificate will remain in force until \_\_\_\_\_ on the \_\_\_\_\_ day of \_\_\_\_\_ 19\_\_\_\_\_.
